### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The examiner respectfully agrees with Applicant's arguments on pages 14-21 of her amendment stating that one of ordinary skill in the art would not have found it obvious at the time the invention was made to combine the teachings of Smith '449 with the teachings of Bowman '008 since the device of Smith '449 is primarily designed to "[allow] the infant to move in a safe and *unrestrained* manner" (as explained in the Abstract); consequently, the prior art rejections of claims 1-4 and 6-19 as being unpatentable over Smith '449 in view of Bowman '008 have been respectfully withdrawn. Moreover, since Applicant's amendment also overcomes the prior art rejection of independent claim 1 as being anticipated by Landwirth '817 (by incorporating the limitations of now-canceled claim 5 into claim 1) and an updated search of the prior art yielded no other references pertinent to Applicant's claims, it is considered that the application is currently in proper condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
